

Limestone Township Planning Commission Meeting

February 28, 2024

Attendees: Teresa Haines, Stanley Bingaman, Les Lyons, Donald Heckman, Charles Axtman and Phares Horning

Meeting was called to order at 7:00PM

January minutes were reviewed with one correction on a meeting date. September 27 is supposed to be September 25, 2024. Phares made a motion to approve the minutes which was seconded by Donald. All in favor, motion carries.

Budget was looked at and filed for review at a later date.

Public Comment:

Charles Axtman was present for the Creekside School project and to briefly touch on the Homestead project. After speaking with PenDOT Charles learned that a traffic study was not necessary for either project. Traffic does not exceed 700 vehicles per hour on Route 304. The Township SALDO (section 4.3) requires a study if the flow is more than 200 vehicles per hour but will waive the study as this is a state road instead of Township.

Meeting adjourned at 7:30.

Next meeting to be held March 27, 2024

Respectfully submitted,

Teresa Haines

Secretary
