Public Comment: Chris Darrup came to ask for an exemption to the Solar Ordinance for a project on his property. Teresa and Savannah from the Conservation District both talked to Chris about having an engineer look at the project to see if it was possible due to the location of a stream. Chris did not want to go that route unless he knew the project would be approved. The Supervisors are hesitant to grant an exception because other residents might come for the same purpose causing discord with the residents. The discussion is tabled for a later date.

Unfinished Business:

Tabled from January: Brian made a motion for Paige Curry and Skylar Rogers to be re-appointed for another 2-year expired term as Auditor's.

Rich made a motion for the Secretary/Treasurer's pay to stay the same which was seconded by Stanley. Brian abstained.

New Business:

Phil Walter brought information about changes that needed to be made as part of the transition from the Water Authority. Teresa and Phil will work on the applications and get the fees paid. There will be a professional coming to determine if and where there might be an alleged water leak from the Mifflinburg supply.
